ACOME 2017

The 2nd International Conference on
Advances in Computational Mechanics

02-04 August 2017 | Phu Quoc Island, Vietnam

Greetings from the Chairman and Co-chairman of the Conference

On behalf of the Organizing Committee, it is our great pleasure to welcome you to the 2nd International Conference on Advances in Computational Mechanics (ACOME 2017) in Phu Quoc island.

This conference is hosted by the Vietnam Association of Computational Mechanics (VACOM) and Ho Chi Minh City University of Technology (HUTECH). It is sponsored by the National Foundation for Science and Technology Development (NAFOSTED), SAKI Corporation, Duy Tan University (DTU) and China Medical University Taiwan (CMU).

The local organizing committee has worked very hard to achieve the best quality technical programme. All papers were peer-reviewed for possible publication as Lecture Notes in Mechanical Engineering indexed by Scopus. The papers will be presented throughout two and a half days in 6 parallel oral sessions, scheduled for each whole day. Particularly, there will be 8 plenary speeches. We have more than 180 researchers and scientists participating in this conference in order to share the state-of-the-art research findings and experience in the wide area of computational mechanics. A majority of them comes from universities and research institutes of 20 countries: Australia, Bangladesh, Belgium, China, Chile, France, Germany, Indonesia, India, Italy, Japan, Malaysia, Norway, Russia, South Korea, Switzerland, Singapore, UK, USA and Vietnam. There are more than 140 presentations of the following themes:

- Biological Systems
- Computational Fracture and Damage Mechanics
- Catastrophic Destruction Mechanics and Numerical Modelling
- Computational Mechatronics
- Composites and Hybrid Structures
- Flow Problems
- Multiscale Multiphysics Problems
- Numerical Methods and High-Performance Computing
- Optimization and Inverse Problems
- Reinforced Concrete, Steel and Steel-Concrete Composite Structures

We would like to thank the authors for their contributions to this conference. We also want to thank the staff members of the Center for Interdisciplinary Research, the Ho Chi Minh City university of Technology (Hutech) for providing assistance during the preparation stage of this conference. We also send our sincere gratitude to the dedicated reviewers for their time and contribution to enhance the scientific quality of the manuscripts. Last but not least, we acknowledge the support received from the sponsors. Without all this invaluable help, it is difficult to imagine the success of this conference.

We hope you enjoy your time participating in the conference and Phu Quoc island.
